

# One

dream

One love            One world  
One day            One night  
One dark            One bright  
One lives            One breathes  
One wonders      One dies  
One people        One life  
One peace        One sky

To feel            To Touch  
Together            Two minds  
Two hearts        To find  
Two others        Too blind  
To be              Too free  
To hope            To dream  
Two arms           Two legs  
Two eyes          To cry  
To rise            To fall  
To laugh           To let be  
To live            Two times  
Too much        To live  
To breathe        To sigh  
To light            To truth  
Today              To care

For others  
For mothers  
For fathers  
For sisters  
For brothers  
For nature  
For love
