

Metrochrist

I found Jesus
On the 181 bus

He got on
At Vermont & Franklin
But did not reveal Himself
Until later
At Hollywood & Argyle

He said
He would forgive
All my sins
For a Marlboro

I told Him
I had no use
For gods or tobacco
Anymore

He said
He was cool with that
And He would
Forgive me
Anyway

Vic Day

Vic Day is a carbon-based lifeform, more specifically an upright bipedal hominid utilizing systems of symbolic communication such as language and art for purposes of self-expression and the exchange of ideas. Originally from Hollywood (yes; -that- "Hollywood"), Vic is a refugee from the fabled People's Democratic Republic of Iguanaland. He currently resides in North Hills, which is not a ghetto. It's NOT it's NOT it's NOT.
